

Young Automation Challenge

VDI¹ VDE

Competition for Students and Pupils

VDI/VDE Society
Measurement and Automation
Technology

In cooperation with

HELMUT SCHMIDT
UNIVERSITÄT

Universität der Bundeswehr Hamburg

We have the problem - you find the solution

- Challenge 2024: Use automation technology for fast, resilient and energy-efficient intralogistics
- Virtual working environment
- Immerse yourself in the world of innovative technologies and solutions that will shape our future.
- Demonstrate your skills in front of a broad audience and develop innovative ideas.
- Make valuable contacts with like-minded people from all over Germany
- Winnings Prize money totalling 6.000,- €

Important Info

Conditions of participation:

Students (Bachelor/Master) and pupils of technical educational institutions, over 18 years old with a current Windows PC, previous knowledge is not necessary, but basic knowledge of automation technology and control programming is an advantage

Competition period: 01/24 - 07/24

Kick-off: date to follow. The HSU invites all teams to the kick-off in Hamburg. Travel cost included.

Working period: 02/24 – end of 04/24

Final presentation and award ceremony

As part of Automation from 02.07.2024 – 03.07.2024, we invite the winning teams to Baden-Baden

Team size:

4 people - however, individual registrations are also possible, then teams will be put together by us (unfortunately we cannot guarantee that this will be successful)

Registration:

Send your registration with the names and e-mail addresses of all team members and information on whether you are pupils or students to yac@vdi.de

You will receive feedback at the beginning of January.
